

Effective Presenting in an English Speaking Context

Workshop overview

This workshop improves non-native English speaker confidence and skill in giving presentations in a professional environment.

Combining input sessions with extensive presenting practice and feedback, participants create and give their own authentic presentations in English. Through this, participants develop and refine their technique and become more comfortable in delivery.

The workshop also allows participants the opportunity to engage in and practise different styles of communication, both professional and social in a mix of business and social settings.

Target language level

The course is aimed at CEF B2 level and above. A pre-course language assessment will be conducted via telephone interview to ensure participants have the required language competency.

Methods used

The approach is communicative and task based, with both training and coaching techniques used.

Objectives of workshop

The course aims to develop the participant's communicative expertise and develop the following competencies:

- ✓ Presenting with confidence in English
- ✓ Presenting a clear and memorable message
- ✓ Understanding of communicative devices / techniques relevant to presentations
- ✓ Making facts and figures relevant and comprehensible for the audience
- ✓ Learning how to prepare for a presentation

Content covered

- ✓ Communicating your message effectively
- ✓ How to interact with your audience
- ✓ What's the presenter's contribution
- ✓ Design ideas for greater impact
- ✓ Studying presentations and handouts
- ✓ Tips for dealing with common problems
- ✓ Framework for building future presentations

Evaluation

Assessment is a combination of self, peer and trainer assessment. A certificate of attendance is issued after completion of the workshop.
